

Special Lectures

Why do you repeat yourself? Impulsivity and compulsivity constructs across dimensional psychiatry

Dr. Valerie Voon (Cambridge)

Translational approaches to neuroplasticity and functional connectivity in depression

Dr. João Bessa (Braga)

What can we learn about anxiety, stress, and brain activity from a wristband?

Prof. dr. Rosalie Picard (MIT)

Lectures

Neurobiology of anhedonia - *S. Claes (Leuven)*

Repetitive TMS - *R. Hurlermann (Bonn)*

Psychobiology of aggression - *K. Kendrick (Chengdu)*

Neuroscience Based Nomenclature - *J. Zohar (Tel Aviv)*

Neurobiology and evolution of sociality - *D. Mobbs (Pasadena)*

Board of Directors:

Koen Schruers (Chairman)	(Maastricht University)
Stephan Claes	(University of Leuven)
Fiammetta Cosci	(University of Florence)
Sean Hood	(University of Western Australia)
René Hurlermann	(University of Bonn)
Keith Kendrick	(University of China, Chengdu)
Ulrike Lueken	(University Hospital Würzburg)
Andrea Malizia	(University of Bristol)
Dean Mobbs	(Columbia University)
David Nutt	(Imperial College London)
Stefano Pallanti	(University of Florence)
Giampaolo Perna	(University of Miami)
Joseph Zohar	(Tel Aviv University)

This course is part of the **International Master of Affective Neuroscience**, a postgraduate programme by the universities of Maastricht and Florence, a combination of residential courses and distance teaching.

The programme offers a scientific training in the subspecialty of affective disorders. Taught by leading scientists, the programme deals with the latest developments in the field.

It is a perfect complement for professional training in psychiatry, clinical psychology and neuroscience.

The course can also be taken as a single course in the **Summer School on Affective Neuroscience**, leading to a certificate, that includes this course and the Summer Course on Mood, Aggression & Attraction.
